ISH BY PETER REYNOLDS		

Suggested memory work review schedule for a four-day week. Review memory work according to week listed (e.g., "W1" stands for "Week 1"). Memory work can be Scripture, facts, poetry, Shakespeare - whatever you would like your family to memorize.

4-day weekly schedule for practicing U.S. geography and incorporating U.S. history and science readings and/or activities. Lower Grammar students can trace a USA map daily and read about or color a coloring page for each state. Upper Grammar students can learn to draw the USA by heart using the Draw USA book. Suggested resources are:
Draw the USA by Kristin Draeger
Don't Know Much About the 50 States by Kenneth Davis
States Coloring Pages

Loop schedule for incorporating poetry, tall tales/legends/folklore, drawing and artwork, and music appreciation. Loop schedule simply means you rotate through these components at a pace that works for your family. (This could be completed daily across a four-day week or just work it in whenever you get around to it.) Suggested resources are:
Can You Hear It? by William Lach
TOV: Treasury of Virtues by William Bennett
DWN: Draw Write Now
DW/TH (P-P-P): Draw and Write Through History - Pilgrims, Pirates, and Patriots
DW/TH (20th): Draw and Write Through History: The 20th Century
Presidents: Presidential Pets: The Weird, Wacky, Little... by Julia Moberg OR
Don't Know Much About the Presidents by Kenneth Davis

Three options to provide three years of reading plans for Family Read Alouds. Each option increases in difficulty. See our detailed list of books on the next page for complete titles.

While our family enjoys reading straight through *The Story of the World* and the elementary science series by Jay Wile (*Science in the Beginning*, *Science in the Ancient World*, *Science in the Scientific Revolution*, and *Science in the Age of Reason*), I have included correlated history and science readings for each week for reference. History readings correlate to the topic heading for each week (at top of page). Science readings correlate with human anatomy in the fall semester and chemistry/origins in the spring semester. Books referenced are:
Story of the World by Susan Wise Bauer
The Mystery of History by Linda Latour Hobar
Scholastic's Everything You Need to Know about American History Homework
America the Beautiful by Noigrass
Classical Acts & Facts History Cards by Classical Conversations
Science in the Scientific Revolution by Jay Wile
My Firs Human Body Book (Dover Coloring Book)
Lyrical Life Science
God's Design for Life: The Human Body
God's Design for Chemistry & Ecology: Properties of Atoms & Molecules
The Periodic Table of Elements Coloring Book by Teresa Bondora
Scholastic's Everything You Need to Know about Science Homework
It Couldn't Just Happen
Classical Acts & Facts Science Cards by Classical Conversations

The "Library List" includes our recommended list of picture books (our family favorites!), a list of readers, and other books related to the week's topic that our family has read and enjoyed. Refer to the following websites for more information.
