Team CanDo Challenge

Set-up: Print and laminate. Cut along solid lines. Glue each CanDo Challenge prompt to the end of a popsicle stick. Place CanDo Challenge sticks upside down in a coffee or tin can. If desired, also make a can of point sticks for the team to select after correctly completing each CanDo Challenge.

Instructions: During a turn, the student pulls a stick out of the CanDo Challenge Can. The tutor/parent determines the week for which the challenge will be completed, and the student completes the CanDo Challenge for that week's memory work. Return the CanDo Challenge stick back to its can or leave it out until other challenges have been completed (for variety). When all six weeks of memory work have been completed for that subject, set the sticks for that subject aside (if they are drawn) and allow student to select another.

Pictionary: Draw on whiteboard without talking. (For younger students, tutor may perform the challenge for the team.) This is one of the more difficult challenges that may be eliminated from the stash of sticks in the CanDo Challenge Can.

Charades: Act out the info without talking. (For younger students, tutor may perform the challenge for the team.)

Hum-a-tune: Hum the history tune. (For younger students, tutor may perform the challenge for the team.)

Team Follow-the-Leader: Beginning with the person who drew a stick, the team must answer the memory question in a list, one at a time and in order.

Geo I Spy: Beginning with the person who drew a stick, the team must identify the correct geographical locations on a map and name them, one at a time and in any order.

Team Unscramble: Team must unscramble the correct week of timeline cards in 30 seconds and then recite them together.

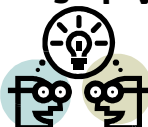

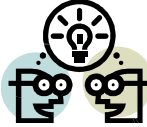

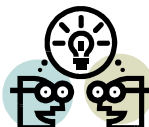

Head-to-Head: The person who drew a stick must go up against the next person on the opposing team. They stand facing each other with their hands behind their backs until the question has been read. First person to slap the table between them must answer the question correctly. If they don't know it within a few seconds, the other person may answer. If the first team wins, they win the round, but if the opposing team wins, they do not win the round - they just kept the other team from earning points. (Then opposing team member takes his/her normal turn).

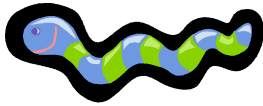

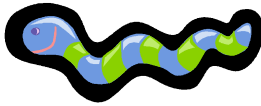

Pop Quiz: Single person trivia for the person who drew a stick, to be answered independently.

True or False?: Make up a true/false question for the person who drew a card, to be answered independently.

Fill-in-the-blank: Tutor reads memory work out loud or writes it on board (e.g., skip counting) leaving blanks in certain areas. Student must fill in the blanks.

Teaching cursive handwriting?

Script-n-Scribe Roller Coaster Writer is an introductory program for learning phonograms by sight and dictation while also learning how to form cursive letters. It begins with large motor skills to help young children learn to write.

For connecting letters into words and sentences - and for practice with tricky letter combinations - take a look at **Script-n-Scribe Letter Connector**. Read more about these products and view additional images and Montessori-style products on our website.

Mission: Great CommissionTM Curriculum

Explore the ongoing fulfillment of the Great Commission through our missions-focused curriculum that explores social studies and science, integrating the study of scripture, history, geography, cultures, missions, hymns, and fine arts. Written for families with students in Grades 2-8 (and beyond), each program within our **Mission: Great CommissionTM series** provides a full year of social studies, science, and fine arts with a focus on how God has worked through creation and through people who were willing to follow His call.

- **Mission: World Wonders** explores ancient to medieval history along with world cultures, religions, and missions (along with fine arts, biology, and earth science). Corresponds with Cycle 1.
- **Mission: Faith Forgers** provides an overview of church history in the midst of world history from the protestant reformation through modern times (along with fine arts, astronomy, and physical science). Corresponds with Cycle 2.
- **Mission: Lasting Liberty** focuses on the history and geography of the United States of America (along with fine arts, anatomy, and chemistry). Corresponds with Cycle 3.
