How to make an accordion timeline

(taken from http://www.halfahundredacrewood.com/2012/09/an-accordion-timeline-notebook.html)

Print the timeline template on cardstock paper.

Determine how much of the timeline you would like to see at one time.

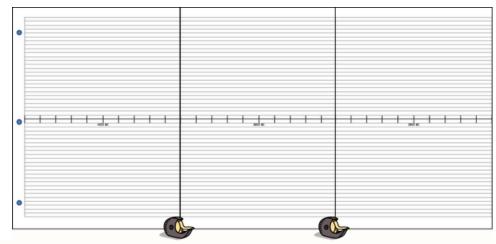

Hole punch the first page for that interval. Cut off the right edge margin.

Cut the left and right margins off of subsequent pages for the interval you have selected.

Align two pages at a time and tape with clear transparent tape, front and back. (You can leave a very small (<1mm) gap between pages as you tape so that it will fold more easily.) Continue to do this for the remaining pages for your selected interval of timeline. Accordion-fold this interval and place into notebook.

Repeat until you have all 6,000 years of timeline completed.
